HON, J. C. C. BLACK MAY BE IN RACE

Messrs. Mitchell, Black and Others Are Strongly Spoken Of-Hon. Thomas M. Norwood Is a Candidate for Senatorial Honors.

The stir and heat of contest will be resumed in the haunts of the legislators this

They will flock back to the scene of battle on the early trains, ready to grasp hold of the stubborn senatorial question and bring

forth some result. They will find the situation unchanged. The lines are just as they left them Saturday afternoon. Yesterday was a quiet day, without events or developments. A few lonely looking legislators sauntered through the corridors. They were not in mood for politics, but seemed anxious to

let the question lie over until today. There was a lack of candidates about the Kimball. Mr. Clay was there, wearing a brand-new suit of clothes. He said he was resting for the fray today. Captain Howell spent most of the day at his home, but will be on the scene early this morning to take up his fight with vigor and determination. The situation yields no indication of the end or what the end will be. The friends of Captain Howell and Mr. Clay both claim that their man will be named today, but

day's voting will have to tell. It looks as if there will be at least fou candidates voted for in the caucus this afternoon. Hon, Thomas M, Norwood, of Savannah, as was announced vesterday, will be in the fight. He will be here with the legislators today, and feels sure that he has a good chance of winning the race.

Hon. J. C. C. Black may also be put in the race today. Four or five members of the legislature stated last night that his There was considerable talk of this being done last week and the candidacy of Mr. Black was near to being sprung.

Any number of dark horses are being groomed. Among those mentioned most prominently are Chief Justice Simmons, ex-Governors McDaniel and Northen and others, in the event present complications result in a deadlock

Mr. Lewis To Be Voted For. It appears as if Mr. Lewis will also be voted for today. Some of his earnest supporters in his former race are anxious to again bring him into the race. They argue that there appears to be a deadlock, and

that Mr. Lewis would stand a fine chance of success should he enter again. No authorization, it is said, has come from Mr. Lewis to put his name back into the contest. But some of his friends declared yesterday that they would vote for him today. One of these gentlemen said that Mr. Lewis had the most earnest and loyal support of any candidate in the race, although it was not so large as the sup-

port of some. The support of Mr. Norwood is an unknown quantity, and cannot be accurately reckoned. The announcement of his candidacy came after the legislators left for their homes Saturday, and of course there is no saying what effect it will have upon the strength of the other candidates. It is known what strength is claimed for him. The announcement comes from Savannah that he is very confident of winning, and expects to poll the vote of a large number of south Georgia representatives and senators.

The rumor has again been started that Hon. Robert L. Perner would be thrown into the race, but this has no substantial basis.

There has been much talk of other candidates coming into the fight, but whether there will be another entry is a fact which only the coming events can tell.

Claims of the Runners.

Mr. Clay's friends claim that he will go into the caucus with more strength than he had last Friday. Some of his opponents say that there is not ground for this claim. was stoutly maintained about the Kimball yesterday that there had been a falling off in Mr. Clay's strength, and that it would register several votes less than were shown in the balloting Friday. Considerable stress is laid upon the fact that Mr. Clay's vote fell off after reaching eighty-one last Friday. At that time every one expected that his vote would go higher on the next ballot, but it did not, and those opposed to him argue that because of that fact his candidacy lacked the winning substance. They declare that a candidacy strong enough to win would not have fallen back at a time

when there were only two other candidates in the field, and one of these in without his

They say that Mr. Clay's vote should have continued to rise until it landed him a winner, instead of falling back on the very next ballot to seventy-one.

The same confidence is exhibited by the candidates which they have exhibited since the beginning of the race. Captain Howell and his friends say they will win today if the legislature makes a choice at all.

A Deadlock May Ensue. There is a probability that the entry of one or two other candidates today will prevent a choice being made. This probability seems very strong and many of the politicians were of the opinion last night that if any of the new candidates developed any sort of strength a nomination could not be made. If as many as thirty votes are cast for candidates other than Mr. Clay and Captain Howell a nomination cannot be made

So it may happen that a long deadlock may be brought about. A deadlock seems highly probable, unless some one of the candidates develops enough strength to go in on the first ballot.

The legislators are in no temper for s deadlock. The race has already been prolonged to a greater extent than they enjoy. They are anxious to bring about a ettlement of the question, although they have been careful to take no hasty or illconsidered action. This feeling of caution on the part of the legislature has caused the members to go slow during the past and adjourn from time to time so that the members might coolly view the situation. There is no fear that the legislators will rush the matter through, although they are anxious to settle it. The long race has been a great hindrance to the business of the legislature. It practically prevents committee work during the afternoons and mtil it is settled the legislature cannot seriously buckle down to work. This fact that legislative work is being impeded is causing the legislators to wish that the natter was settled.

A Memorable Fight. The race has been one that will go down in the history of Georgia politics. It has never been equaled in excitement. The legislators were totally unprepared for the question, and it is to this fact that much of the delay that has been caused is due The legislators were not prepared to settle such an important question in so short s time. They were not aware of the feeling of their constituents, and were unwilling to rush hastily to a solution of a matter of so grave importance to the state. The people of the state have placed this interpretation upon the delay in the settlement of the fight, and the legislators are not be ing censured for the care which they are

taking in the matter. The caucus meets at 3 o'clock this after-

BRYAN GOES DUCK HUNTING. Chairman Jones Tells Why Democracy Was Defeated.

Little Rock, Ark., November 15.-Senator James K. Jones, chairman of the demo-cratic national committee, was in Little Rock today and left tonight for St. Louis, where he will be joined by W. J. Bryan and Governor Stone, of Missouri, on a trip to the St. Francis river on a duck hunt, When asked if he had been quoted correctly in saying that one powerful cause contributing to the defeat of Bryan was the placing of orders at factories to be filled in the event of McKinley's election, he said: "Yes, such orders cut a large figure. Mil-lions of dollars' worth of these orders were placed, and the manufacturers made it int to call their employes in and exhibit the contingent orders. They impressed upon the wage earners that McKinley's election would result in giving them work for at least six months from the orders at hand. It was the beginning of the winter, when the people had nothing and had to do ething to insure them the necessaries

MR. TOWNE WILL NOT CONTEST. Morris Beats the Populist Candidate for Congress by 740 Votes.

Duluth, Minn., November 15.—Page Morris's majority for congressman from the sixth district, as established by the official vass completed yesterday is 740. The total vote cast for both Morris and Towne, populist, was 59,864, an increase of 20 per cent over two years ago.

Towne has given up the idea of contesting Morris's election.

President Anticipates No Trouble with Spain on Account of Cuba.

ACTIVITY IN NAVAL WORK

All Departments Are Keenly Alive and Ready for Any Emergency.

HEAVY ORDNANCE BEING MADE READY Well-Informed Officials Apprehend No Trouble, but Say It Is Well

To Be Prepared.

Washington, November 15 .- Many statements respecting the attitude of the ad-ministration on the Cuban question have been circulated during the past week, and various articles of a conflicting character have been distributed throughout the

The president has said that he does not anticipate any trouble with Spain over the Cuban situation and that there is no intention to change the policy respecting the matter which was laid down by the ad-ministration a year ago. In addition to this members of the cabinet have stated that the Cuban matter would be left for the new administration to settle.

While following such a course may be the intention of President Cleveland's ad-ministration the facts warrant the statement that should an emergency arise re-quiring prompt and decisive action, the several departments of the government will be found keenly alive to the requirements of the occasion and amply provided for any emergency which may be en-

Measures of a precautionary character have been taken to meet any critical con-ditions which may arise; in other words, the United States is judiciously continuin the work of strengthening its fortifica-tions and works of defense, which have been in progress for several years, and will thereby be prepared to change its poli-cy should it be deemed advisable to do so. Investigation proves that army officers along the Atlantic coast are pushing the work in their several departments with all possible dispatch under orders to have certain classes of heavy ordnance ready for use at as early a day as possible. Every precaution for secrecy has been taken and officers located at the navy yards decline to discuss their unusual activity. LADIES SELL THEIR JEWELRY. Spaniards Show Great Desire To Subscribe to the New Loan.

London, November 15 .- The Daily News will tomorrow publish a dispatch from Paris detailing a patriotiv outburst in Spain, which is manifesting itself in an eager de sire to subscribe to the new internal loan

issued by the government.

Ladies are selling their jewelry in order to raise money to help the government, while the bishops are promising to devote the gold and silver plate belonging to the churches to the same object. Brokers in Madrid have undertaken to dispose of scrip to the amount of £4,000,000 sterling.

Glasgow, November 15.—The steamer Alaska, belonging to the Guion Line, but with a Spanish crew, has left the Clyde for a Spanish port, where she will embark a number of troops for Cuba. She is under charter to the Spanish government.

SPAIN'S LOAN ACCOMPLISHED.

Bids Will Be Opened This Morning and Twice the Amount Offered.
Washington, November 15.—Proposals for advancing the new loan of \$50,000,000, asked for by the Spanish government, will be opened tomorrow at Madrid.

Mr. Dupuy de Lome, the Spanish minister pere, this evening received a cablegram from the minister of foreign affairs infor ing him that proposals already filed by bankers and brokers amounted to more than \$60,000,000, and the government was of nion that by the time fixed for opening the bids, the total amount of proposals would reach \$100,000,000, or twice as much as The news from Cuba and the Philippine islands today, Minister Dupuy said, was satisfactory, but no details had been furnished him.

SPANIARDS DIDN'T WIN VICTORY Telegrams from Manila Were Badly

Misleading. Madrid, November 15 .- A dispatch to The Imparcial from Hong Kong states that the report from Manila that the Spaniards had won a brilliant victory over the insurgents at Novaleta, the latter losing 400 killed, was incorrect.

The truth is that the Spaniards attacked the rebel positions at Novaleta on

November 6th, but could not carry them the rebels being strongly fortified. Another attack was made on November 11th, when the Spaniards were repulsed with a loss of 200 men. WANTED TO LYNCH NEGROES Sheriff Had Great Trouble To Protes

Is it possible that you fully appreciate the effect of such advice? At least upon reflection, you must know that if enough populists should follow such advice, it ould mean the defeat of Bryan and the election of McKinley. Besides, if your advice should be followed by enough populists, the people's party would not have a single elector in the electoral college. In the states where we have joint electoral tickets, we will get every elector that we do the people's party congressmen. In your own state, and other states which have collowed your advice against electoral cickets, we will not get a single elector, and I fear not many congressmen, if any.

ity of 301.173 Harrisburg, Pa., November 15 .- The official computation of the vote of the state of Pennsylvania was completed at the state department today. McKinley and Hobari received 728,300 votes; Bryan and Sewall 427,127; Levering and Johnson 19,274; Palmer and Buckner 11,000; Matchett and Maguire

1,683; Bentley and Southgate 870.
This shows a plurality of 301,173 for McKinley and Hobart over Bryan and Sewall but adding to the Bryan vote the vote cast in the people's party column for Bryan and Watson the plurality for McKinley over Bryan is reduced to 295,070.

The total vote cast for president was 1,194,357, an increase of 191,347 over the vote of 1892. The republican gain over 1892 was 212,289. The democratic loss was 25,137. The vote for congressman at large was Grow, republican, 711,346; Davenport, republican, 708,633; Dewitt, democrat, 413,800; Ailman, democrat and populist, 418,219.

The trouble began when Congressman Foss, for the city faction, moved that a committee take the books of the secretary in order to prepare for the annual meeting. The county members, led by Sheriff Pear began an uproar, and a center rush was made for the books, during which the records were thrown out of the window into a alley, and a general mix-up followed. In the meantime a riot call was turned in, and a platoon of police soon put a quietus on the refractory politicians. W. D. Boyce, prominent in politics, presided over the

Much interest is being centered upon the action of the state convention that meets in Atlanta next Wednesday to nominate the candidates for the supreme court

What that action will be cannot be foretold at this stage of the race, but enough is known to indicate that the contest will be hotly fought from the start to the fin-

field, and it is probable that others will be announced before the convention meets. Several new candidates were brought into the field by the action of Saturday's mass meetings, and a number have been 'indorsed who have not yet announced their candidacy.

The convention will be called to order Wednesday morning by Hon. A. S. Clay, chairman of the state democratic executive ommittee. The next move made by the convention will be the selection of a permanent chairman, and then the nominations will be made. The balloting will be sharp and exciting and many names will probably be placed in nomination that have not yet been intimated, as a number of the countles that have taken action falled to instruct their delegates. The strength of the uninstructed counties may be thrown to some of the candidates already in the field, or it may go to others whose announcement will be made for the first time

Detectives Think They Will Convict Him. Too, in the Waters Murder.

HELD AS PERDUE'S ACCOMPLICE

Officers Think He Aided in the Killing of Waters-A Resume of the Evidence.

The mystery surrounding the death of Waters may never be solved in its en-

Last week was a busy season with the city detectives and the county officers. Both forces have been doing excellent work on the famous murder case, and their efforts have been rewarded by what appears to be damaging evidence against the three negroes now locked behind the bars at the

Little if any work was done yesterday. The officers spent the day in summing up evidence they have already secured. Chief Detective Slaughter stated last night he had no doubt but that he would be able to convict Perdue on the evidence already secured.

The authorities think not enly Per due guilty, but Morgan also. Both positively deny their guilt and will seek to establish an alibl, but the officers state it will never hold in the face of the inexora ble fact that Waters and the negro Perdue were seen together on the day of the kill ing, sworn to by at least a dozen reputable witnesses.

Dark for Morgan.

The authorities will attempt to prove that Perdue did the killing, and that Morgan was his accessory. It will be claimed that Perdue had previous trouble with the dead man on account of a dog, and that the killing probably resulted from this mo will also be shown that Morgan was present at the time, and that he probably aided in dragging the body from where the fatal shot was fired.

Undoubtedly the strongest point yet urged against the prisoner is the statement of Mrs. Parish, who lives within only a few feet of where the tragedy was committed. Mrs. Parish states that on Tuesday af-ternoon, the day of the killing, she was hitching her buggy at her barn. It was too dark to shoot a squirrel or a rabbit. Mrs. Parish heard a gun shot in the direction of the killing.

In twenty minutes afterwards she drove down the Humphreys road toward the city. About a quarter of a mile from the scene of the murder she passed three negroes and heard some significant remarks, One said: "I have killed the damdest biggest rabbit today I ever saw." He was in-terrupted by another one of the party, who 'Don't talk so loud, for that lady

Mrs. Parish was struck by the remarks and noticed the trio carefully. The descrip tion she gives of them answers exactly to the three men locked in the station house accused of the deed.

In searching Perdue's house early yesterday morning he discovered a black dog locked in one of the rooms. In a shor while afterwards the officer questioned Per due at the station house about the myste-rious animal, and the negro admitted he had stolen it while out hunting with Morgan on the day of the murder.

Perdue said the dog had run by him in a field beyond Westview cemetery after a rabbit, and that he had called him off and brought him home. If the owner of the dog is ever found it may establish Perdue's whereabouts at that time.

WANTA NEW MANSION

Alabama Legislature Piguring on a Home for the Governor.

IMPORTANT BILLS INTRODUCED

Johnston's Inauguration Being 'Arranged-The Race for Senator Seems Very Tame.

Montgomery, Ala., November 15.—(Spe-cial.)—Yesterday was without special inci-dent in the general assembly, although several important measures were introduced.

Among the general bills introduced into
the house was one by Mr. Dreyspring, of Montgomery, seeking to render void all contracts that may be entered into in this contracts that has state calling for payment in gold or any other currency than the general legal tender of the United States. Mr. Dreyspring's bill was referred to the committee on re-vision of laws.

Another bill of interest was that intro-

duced by Mr. Brandon, of Tuscaloosa, pro-viding for the purchase of a governor's mansion for the state. The bill proposes an appropriation of \$25,000 for the purpose seeks to authorize Governor John Attorney General Fitts and Supreme Court Judge McClellan to select a suitable place and make the purchase for the state.

A white house for Alabama's governor has long been needed and the consens nion among the members appears to be that economy should be exercised along some other line during the next two year and that a mansion be brucht. Mr. Bran-don, who is championing the movement, is one of the most industrious members of the house, and the friends of the measure are confident of its success under his man-

The house yesterday morning also adopted the resolution introduced by the com-mittee on rules Friday, providing for the appointment of a joint committee consisting of three senators and five represensecretary of the and the clerk of the house as its clerks, to sit during the recess of the assembly and the new code, which has been prepared by Commissioners Martin, Sayre

and Massle. Two bills were introduced into the house providing for a uniform series of text books in the public schools of the state, which is a measure that the members ap-

pear generally to approve.

Another bill, introduced by Mr. Brown, of Colbert, seeks to prescribe certain studies in the elementary grades of the public schools and specifies that they shall include orthography, reading, penmanship, arith-metic, geography, English grammar, physi-ology and hygiene, United States history and the history of Alabama. Mr. Brown's bill, in other words, requires the elementary schools to teach, in addition to their present curriculum, physiology and hygiene and Alabama history. The additions are indis-putably desirable and it is believed the

bill will pass without a dissenting vote.
Mr. Hearn, populist, of Choctaw, introduced a bill to repeal the tax equalization
law passed by the last legislature. He says it does not work satisfactorily in his county. Other members have urged objection to the law and it will probably be material ly altered at least. The question of consent is attracting con

siderable attention at the hands of this legislature. In Alabama the age of consent is ten years, which is less than the age prescribed in almost any other state. The evision of laws committee turned down a bill seeking to increase the age to sixtee years and placing the penalty for viola at death or life imprisonment Mr. Boulden yesterday introduced a bill proposing to increase the age to eighteen years and grading the punishment to fit the conditions of the crime. The house i evidently disposed to increase the age to twelve years and probably to fourteen, with penalties for different degrees of the

Mr. Wiley, of Montgomery, introduced bill to incorporate the People's Mutual Life Insurance Company of Alabama, with headquarters in Montgomery.

Mr. Dale, of Wilcox, introduced yesterday what is considered to be a very wise measure. It provides that the law partner of a solicitor shall not represent the defendant in any case in which the solicitor prosecutes the peace shall not appear as counsel in the court of the said justice.

The Senate. Senator Brown, of Cullman, introduced a bill providing for the grouping together or the official ballot of the names of the nomi nees of each party, instead of having the

appear alphabetically as at present. Senator Abercrombie offered a joint reso lution to raise a committee of two from the senate and three from the have charge of the inauguration of Govern or Johnston and authorizing the said com nittee to expend not exceeding \$100 the purpose. HOT CAMPAIGN AT BIRMINGHAM Four Candidates for the Mayoralty. One a Georgian.

Birmingham, Ala., November 15 .- (Special.)-Birmingham is in the throes of an other election. Though it is only a municipal election, it is nevertheless a very heated one. The voting will take place on the 1st of December and before that date some hot times will have been had in this city. There are four candidates in the race, viz: Frank V. Evans, democratic party candidate; Rev. J. A. VanHoose present mayor, reform party candidate Christian F. Euslen, citizens' reform party candidate; Alva C. Lowery, citizens' independent party ticket candidate. Mr. Evans was the successful aspirant in the primaries held here a month or so ago. He is a South Carolinian by birth but has been in Birmirgham a long time, a greater part of which time he was in the paper business. He was receiver and bus-iness manager of The Age-Herald before Company secured it. He elty clerk for a number of years. Mayor VanHocse was elected two years ago by the reform party by a sweeping majority He has made an excellent mayor and has many friends behind him. He will keep up in the race and is likely to win ir. Alva C. Lowery is a Georgian and a newspaper man by occupation, also, was lately connected with the posto here in the money department but was let out, so it is stated, on account of bein cardidate for mayor. Mr. Euslen, the ditizens' reform party candidate, is a member of the present board of aldermen and is chairman of the state committee. It is admitted that the race lies between Messrs. Evans and VanHoose. The saloon keepers and ward men are with the first named, the kid-gloved crowd are with Mr.

After a Big Contract. Mr. F. B. Nichols, vice president of the Howard Harrison Iron Company, the largest pipe manufacturing concern in the south, is in Baltimere bidding on a contract for 26,000 tons of piping, to be used in a continuation of the Hub City's waterworks system. The Howard Harrison Iron

Company have four pits at their plant, Bessemer, twelve miles from the city, three of which are in full blast. Between five and six hundred men are at work in the plant. The fourth pit will be put on if the centract in Baltimore, which will be given out on Monday, is secured for the southern plant. Mr. Nichols has great hopes of being successful in the race for the big plum. Iron Selling. The pig iron shipments from the districts are enormous at present. A billing order was issued by one of the large fron manufacturers by the southers iron committee for 59,000 tons during the week just closing. Quotations in the pig iron market are looking upward and another advance is expected shortly.

PETTUS SEEMS TO BE WINNER. Senatorial Election in Alabama Grows

in Interest. Montgomery, Ala., November 15.—(Special.)—Up to midnight nothing new has been developed in the senatorial race. Fettus is a big favorite. His friends claim he will go into the country. will go into the caucus tomorrow with forty-two votes, forty-six being ne will come on the third or fourth They believe that no matter who with-draws Pettus will inherit sufficient votes o nominate him. They claim, too, a deadlook is improbable; that there are a dozen members who prefer other candi-dates, but who will come to Pettus after ten or twelve ballots and after it be-comes apparent that he has a decided lead.

It must be confessed, too, that there are many indications that their claims are reasonable.

The friends of the opposing candidates deny that Pettus will go in with forty-two votes or within five or six of that number. They deny also that the withdrawal of just any candidate will carry sui votes to Pettus to nominate him. The abundant hope and insist that the fight

is not nearly over with.

Politicians and individuals who are disinterested can figure out no fighting chance for any one but Pettus. To defeat him it is apparent that all of the others must combine and must deliver practically all of their strength. This appears now to be beyond the range of possibility. The contest has so far been conducted in a dignified manner and without engendering

osity. There has been no fight made on any one. Pugh's friends are not fighting Pettus and neither are those of Bank-head nor of Oates. The prob-abilities are that Senator Pugh, who has conducted this campaign on a very high plane, will not block the business of the caucus, but after giving his friends an opportunity to declare themselves for him will retire. This may solve the problem, although the friends of Cates an Bankhead claim to the contrary.

Gadsden, Ala., November 15.—(Special.)— Lulu Stinson, a good looking young wo-man living near Hillman's furnace, attempted suicide this afternoon at 3 o'clock by the morphine route, combined with tur pentine and whisky. She took 25 cents worth of morphine, two ounces of spirits of tur-pentine and a pint of whisky. Dr. Liddell was hastily summoned and attended to her and she apparently was getting all right. But later, about 6 o'clock, she grew worse and it seems she must have procure more of the polson. When reached she was nearly dead, her pulse having ceased beating. Some young men took her out in the road and walked her for about two hours until Dr. Liddell arrived again, when she was given restoratives. ALABAMA POPULIST ELECTED. Late Returns Show That Howard Was

Chosen for Congress. Gadsden, Ala., November 15.—(Special.)— The contest between M. W. Howard and W. Bullock, for congress, it seems, has been inally decided in favor of the former. For some days the matter hung in the l the result depending upon the returns from Winston county, which has heretofore been republican. General Shelley sent out the report that the county had given Bullock about 800 majority. This being true, the district would have been safely for Bullock by about 176 majority, and this claim was confidently made by Bullock's friends. Late returns, however, establish How ard's election, as authentic figures give Winston county to Curtis the republican

candidate, by about 300 the district to Howard by something over 600 majority and leaves him the only populist elected to congress from Alabama

WILL MEET IN MONTGOMERY. University of the South and the Ala-

bama Polytechnic Teams To Play. Montgomery, Ala., November 15.—(Special.)—At 8 o'clock Monday evening the levens representing the University of the South, at Sewance. Tenn., and the Alabama Polytechnic institute at Auburn, Ala., will line up against each other to settle a grudge which the latter has had agains Sewanee since '93, the Sewanee team having then beaten Alabama's men in Atlanta by a score of 16 to 14.

Atlanta men will remember the game which was fought there in that year, for it was a hotly contested one, being wor only in the last three seconds of play. The verage weight of the two teams this yes is very near the same, that of Auburn be ing 160 pounds and Sewanee's men weighing on an average of about 158 pounds. The line up of the two teams will be as follows:

Tucker.. Harve ..Left tackle. .. Sargen Richeso .Right guard .. Wilder...Quarter back..(Capt.) Tichenor Walts...Left back.. Williams Selbels...Right back.. Purifoy Tanner, (Capt.) Full back.. Stokes

Sewanee has played three games this year, and has been defeated only once—by the University of Georgia. Auburn ha played only two games this season, but has been comparatively successful, for in the victor, scoring 46 to Mercer's 0; and in the game with the Atlanta Technological in stitute Auburn was again the winner, de feating her rival by a score of 40 to 0.

CUT COMMITTEE CLERKS' PAY.

Alabama Legislature Will Reduce Compensation of Workers. Montgomery, Ala., November 15.—(Special.)—It is announced today that a resolution will be offered in the assembly to morrow to reduce the salaries of the con morrow to reduce the salaries of the committee clerks from \$4 to \$2.50.

It is claimed, however, that the clerks have qualified for the term and that the resolution will not be retroactive and, therefore, will not affect the salaries for the session.

Columbus Wholesale Grocers Will Seek Railway Commission Aid.

ALABAMA TOWNS UNDERSELL

Merchants Have Appealed to the Railroads but Without Effect-White's Trial.

Columbus, Ga., November 15.—(Special.) t is probable that the wholesale grocers t Columbus will ask that the interstate commerce commission compel the rail-roads to reduce certain freight rates affecting vitally the interests of the grocery jobbers of the city, which rates the railroads themselves have failed to reduce. For some time the wholesale grocers of Montgomery have been invading the legitimate territory of Columbus in the legitimate territory of columns in Alabama and have successfully competed with the wholesalers of this city, whose territory has thus been steadily reduced. The Montgomery and Birmingham wholesalers are enabled to do this on account of the lower freight rates they enjoy. Realizing the situation, the grocers of the city have applied to the Central railroad for a reduction of their freight rates into Alabama territory on the ground that they pre justly entitled to the railroad that Mongomery enjoys and that such a reduction would benefit the railroad as well as the merchants. Columbus is practical-ly a Central railroad town and the petitioners argued that while the whole salers would do more business if the rate were reduced the railroad would necessarily haul more freight. The Central controls five of the seven roads that enter Columbus, hence the improvement in business would benefit the road. A representative of the road was in Columbus a day or the sent the s day or two ago, but could promise no co cession on the part of the road.

Columbus now has a water route v Apalachicola and Mobile and the whol salers claim that, this being the case, th town is entitled to low western rates base on this fact. They claim that now the water route has been established are entitled to he same rates that othe towns enjoying this advantage have.

As the Central shows no disposition to grant the concession asked for, the whole-salers will probably carry the matter before the interstate commission. They will

fore the interstate commission. They wil ask that that road be instructed to gran reduced rates to Columbus wholesalers reduced rates to Columbus wholesalers, the reduction being in proportion to the rates enjoyed by other water rate towns in this section, Having a water route established, they think that they are entitled to the low rates that such an advantage usually gives a town. The water route has been tested and it has been found that goods shipped by it from the west arrived just as quickly and in as good condition as those that were shipped good condition as those that were shippe

Tennessee Republicans Will Meet Today in Nashville.

Nashville, Tenn., November 15.-(Special.) Over a score of prominent republicans reached the city tonight and as many more are expected tomorrow morning.

They come to attend a meeting of the republican state executive committee which will decide several questions of im-portance that have arisen since the election. One of these questions is whether there shall be a contest over the gover-

The official returns have not yet been compiled, but there is hardly any doubt that Taylor will have a plurality Tilliman of 5,000 or 6,000 on the face of the returns. The republicans charge, however, that there have been gross frauds in the count in Fayette, Tipton, Hardeman, Haywood, Madison and Lauderdale counties. In support of their charge they cite that they paid poll taxes for 5,000 republican votes in the ninth congressional district and yet the democratic majority in that district is increased by about 5,000 votes over the August election.

The legislature is so overwhelmingly democratic that many republicans doubt the wisdom of making a contest over the governorship. They see no chance of accomplishing anything but would simply Tillman of 5,000 or 6,000 on the face of the

NEXT TO DANIEL WEBSTER.

The Oratorical Career of Rufus Choate. the Great Jurist. From The New England Magazine

Mr. Choate was an orator with a range scarcely paralleled in our country. He stood easily at the head of all forenste ald the breathless attention of a senate where lingered the echoes of Webster's voice, and where Clay and Calhoun were still to be heard; and he was a first-rate favorite on the platform of the conventi and the lyceum at a time when both teem-ed with fascinating and instructive speakers. To occupy a first-class rank in three such highly specialized lines of oratory is such highly specialized lines of oratory is rare indeed; yet no one ever disputes Mr. Choate's right to that position. Before Mr. Webster had been dead nine months, Mr Choate delivered his eulogy at Dartm college, and Mr. Everett, speaking of the oration in the next month, called the orator 'our matchless Choate, who has just elec trifled the land with a burst of eloque not easily to be paralleled in the line of Founding his oratory upon the solid base of profound learning, whether in law in government or in literature; he kindled the mass of all these acquisitions by his rhetorical genius into consuming heat and a dazzling light all his own.

and a dazzling light all his own.

Mr. Choate's oractory was distinguished for an intense richness and exuberance of language, caught in no slight measure from his favorite Cicero. This sometimes makes his speeches difficult to read; the overflowing sentences are too long, the teeming fancy, the bounteous illustration verged on the grotesque. But they were meant for the hour, to be heard, not read; and two things carried off every vestige of tedium or incongruity. First, Mr. Choate's personal appearance on every occasion was so striking that he held the attention of his auditors with an influence that was sonal appearance on every occasion was so striking that he held the attention of his auditors with an influence that was magical. Of other distinguished orators, William Pinkney was famous, as was Erskine in England, for the extreme, almost foppish, elegance and splendor of his appearance. Henry Clay presented a singular combination of features, the most uncouth that could easily be imagined with a gallantry of delivery and magnetism of tone that generally captivated any new hearers, but minded with a great imperiousness and defiance that made not a few enemies in the senate. Sergeant S. Prentiss, second to no American speaker in his amazing power of arousing enthusiasm, offered at the outset a presence as insignificant as St. Paul's. Mr. Webster's massive stature and deep-set eyes are familiar to all, though the slow manner and ponderous diction of later years belonged to the days of his greatest triumphs. But the power of Mr. Choate's look and manner was something of a different order. His shock of raven hair, his wildiy flashing eye, his gaunt frame, his sallow cheek, his restless action, and, above all, his strangely musical voice and rythmical delivery, arrested and held attention in an uncanny, a witchlike manner, unearthly in every note, look and movement.

From The Sylvania Telephone.

There must be an improvement on the present, or the people will not be satisfied. For several years they have been going from bad to worse, and the man who does not know that the business of this country is depressed and that the people in all the varied vocations of life are hard-run in spite of all the economy they can practice, is blind to the events and conditions that surround him. We need a change for the better; that cannot be denied. Whether the new republican administration will give it to us or not remains to be seen new republican administration wit to us or not, remains to be seen.

chanic.

The idea is to weld the rails together as as to make a solid track from one end of the street to the other. This keeps the car from bouncing at the end of each rail, causing discomfert to the passengers and much wear on the rails. The manner in which the work is being done is in itself decidedly interesting.

After the paving and dirt have been cleaned away from the ends of the rails a punching machine is set to work, which in a very short time bores holes in the under part of the rails. A mold is then put around the rails and the molten steel is poured in. This causes the rails to become red hot, and when the entire thing is cooled the mold is taken off and the rough edges of the molding are filed away. The holes which are bored in the rails become filled with the iron, which makes the welding as solid as the rail itself. The people who saw this work in progress were of the opinion that the expansion and contraction of the rails would cause a wreck as soon as it became sufficiently cold or warm to affect the rails. old or warm to affect the rails. But an nvestigation of the subject proves this to be a mistake. The experiment has been

Rome's Reviving Business.

From The Rome Tribune.

The cotton crop this year is proving larger than was anticipated, and the that we are able to load cars direct that we are able to load cars direct for the great steamship lines speaks well for the Hill City. We predict that the day is not far distant when we will be shipping out other farm products in the same way. We are now adding largely to the fresh meat supply of the world by shipping out carload after carload of fat cattle, hogs and sheep during the year. There is no estimating the extent to which this busi-ness may be brought up with improved ness may be brought up with improved methods of agriculture.

Mr. Milton was ordered out of the buggy, and he obeyed. They told him to give up his money, and he told them that it was in his buggy, where he also had some whisky. Mr. Milton told them that he would be glad to have them take a drink with him, and when he reached the buggy he took his pistol from under the seat and turning upon his assailants, he covered them with it, Mr. Milton kept them covered until he drove away and was out of their reach. He says that he thinks they were strangers in this part of the country, and from their appearance he thinks they were tramps.

Two Negroes. Americus, Ga., November 15 .- (Special.)-A bold robbery was reported to the police department yesterday by Mr. Ben Cureton, a farmer living near Americus. As he was returning home two negroes stopped his buggy and asked for the change of a twenty dollar bill.

Unsuspectingly Mr. Cureton handed

one of them the change, when, according to his statement, the other negro thrust a pistol in his face and commanded the farmer to hand over all his money. Mr. Cureton had \$56, which he says the negroes took from him and decamped. He reported the affair to the police and later identified two negroes as his assaliants. The men were locked up, though protesting their innocence.

TRAVELING MAN DIES SUDDENLY Townsend, of Greenesboro, Found

Lifeless in an Augusta Hotel. Augusta, Ga., November 15.—(Special.)— C. Townsend, of Greensboro, a wellknewn traveling man, was found dead in his room at the Planters botel. He retired to his room in apparently his ordinary health and left instructions in the office to be called in time for an early train. The bell boy was unable to get any response to his knocks, and subsequent investigation disclosed that Townsend was dead. He was only partly undressed, in-dicating that he was disrobing for bed. He had been a patient of Dr. J. M. Hull, and he gave a certificate of death caused from heart disease. No inquest was neces

Was Suddenly Stricken Saturday Night and Died Yesterday. Mr. R. E. Dorbs, steward at the Kimball house, died suddenly last night at 8 o'clock from the effects of an illness with which he was seized late Saturday night. The funeral will occur this afternoon at 3 o'clock and the remains will be interred in Jonashoro. Mr. Dobbs was well known in Atlanta. He was with the Kimball as steward one year, then was with the Markham two years, after which he again became connected with the Kimball. He was twentynine years old.

A physician said he had been dead for some hours. The gas was partly turned on, the jet being turned before the window, which was open a trife at the top.

There were no evidences of suicide. Two of Oliver's friends, who spent Saturday evening with him, say that he was in good spirits all right and when he left them was perfectly sober. He had been in the house only two months, having come from

Charleston, S. C., to look for a position, His father is a contractor in that city. Is is supposed that the gas was blown out, or that it was accidentally turned on during the night.

THE LARGEST BLOCK OF GRANITE Vermont Has One That Will Be Hard

To Get to New Orleans. Bellows Falls, Vt., November 15.—Much inconvenience is experienced in finding a railroad route to New Orleans along which the covered bridges are high enough permit the passage of the largest block of granite ever quarried in Vermont. The block is fifteen feet square and three feet thick. It is intended for the noted Morlarty monument in that city. It was quarried in Barre and has been moved to the dressing sheds. A special car is being built by the local roads, on which it is in-tended to set the block on its edge, lefting the lower side swing through the bottom extending to within eight inches of the rails The weight of the block exceeds fifty tons investigation shows that most routes bridges too low for the block to pas

But just be-fore he reached the house his dog made a charge on two unknown parties, and one of them, with a small rifle, fired on the dog, killing him instantly. The boy, who had a marlin rifle on his shoulder, ex pecting he would be next, took his rifle in hand and made himself safe by making a mile in a minute and a half. He was barefooted, but did not realize that there were any briar patches until he reached the end. A party of four was formed to go in search of the parties who shot the dog. They were well-armed with rifles shotguns, etc. They came to the place where the dog was killed, which was near the house of a Mr. King. OSBORN CASE TODAY BASEBALL IN SIGHT

Be Called This Morning.

INSANITY WILL BE PLEADED

Case Will Be the First One Called, and It Is Probable That It Will Be Tried at Once.

The trial of Ben Osborn, the man who has the blood of Theodore Schrader on his hands, will be called this morning before Judge John S. Candler. It will be the first case called, and will probably be begun The story of the murder is still fresh in

the minds of the public. About five weeks ago, while Theodore Schrader was walking home from his work at the Atlanta Lithographing and Engraving Company, and just as he was crossing the railroad on Loyd street, he was ruthlessly shot to death Osborn, with whom he was ac quainted and with whom he had been

Osborn was at once arrested, and imme diately began to show signs of mental aberration, and later he developed into a raving lunatic. At the time of the murder was found that he had been unsound i mind for some time, and that the officers were looking for him at the time that he committed the murder. He had married roung girl in the city about a week before was aware that he was of unsound mi but that she loved him and was willing

Since Osborn's incarceration in the Fulton courty fail he has been a source of con-stant worry to the prison officials. Several times he has gone for days without eating, and has at all times shown a disposition to mimic the actions of a dog, biting at those who went near his cell, and often growling and snarling at those who came near him. At the trial today the attorneys for Osborn-Glenn, Slaton & Phillips-will a plea of insanity, and base their defense on it. They will endeavor to show that he was insane at the time that the crime was committed, and that he has co stantly grown worse since being confined at the jail, it is probable that his wife and family will be put on the stand to

testify as to his insanity. The case is a remarkable one, and will no doubt go down on the records as one of the most famous in the annals of the state. There seems to be little doubt as to the outcome of the trial. The consensus of opinion is that the murderer was insane at the time that he killed Schrader, and he will probably be sent to the asylum.

The Case of Schrader's Murderer Will Lovers of the Game Will Be Made Happy

NEW LEAGUE WILL CONTROL

Five Clubs Have Already Been Secured and Many Cities Are Applying for the Sixth Place.

The Southeastern Baseball League had a meeting last Monday at Augusta. The work of organizing was fully completed and the outlook for the lovers of the game is very bright. There were present at the meeting Messrs. R. C. Bosche and W. T. Movers of Atlanta: Major E. E. Winters, who is superintendent of the street car company of Macon; Messrs. Theodore W. Passalaigue and Sol Bow man, of Charleston, at which place Mr. Passalaigue is the president of the street car company and Mr. Bowman is an owner of one of the hotels; Colonel Dyer, president of the street railway company, and S. H. Meyers, of Augusta; and Mr. J. J.

Harrigan, of Savannah. The standing of the gentlemen gives as surance that the league will be on a firm financial basis. At present there are five clubs in the league, but it is thought that Columbus, who was in the league las year, but who went with the Southern League after the Southeastern failed to get recognition from the national league,

In a letter which Mr. John B. Flournov president of the Columbus Street Railway Company and owner of the franchise in that city for the Southern League and who also held the franchise in the Southeastern League last year, wrote to Mr. R C. Bosche, of this city; he stated that at the proper time he would be with the Southeastern League.

It was the unanimous sentiment at the Augusta meeting that Columbus should be in the league. And they held to their idea in the face of applications from Co-lumbia, S. C.; Charlotte, N. C., and ever Jacksonville, all of which made an exellent financial showing as to their ability to support a club.

The difference between the Southeastern and Southern leagues is apparent at a glance. First on account of the railroad mileage, which was one of the principal evils that had to be contended with by the Southern League last year on account of the long jumps to New Orleans and Little Rock. Second, want of rivalry between the citles which were in the league. This was probably because the ities were so far from each other. It will be remembered that 1885 was the most successful baseball season that the south has ever experienced, and it was on account of the rivalry between Atlanta, Macon, Savannah, Columbus, Augusta and

Charleston. Another feature of the league which will operate to advantage this season will be the salary lynit. While salaries will not be as large as they have been in the last few years, still they will be ample to give the people as good ball as they have ever had. The promoters of the Southeastern League say that heretofore the ruination of baseball has been that the salaries have not been warranted by the attendance, And a strenuous effort will be made to keep within bounds and still give good ball.

The Atlanta management will be in the hands of some of the best and most prominent men in the city. Colonel W. T. Moyers, who represented Atlanta at Augusta meeting, will be at its head he will have a competent board of directors at his back, and this is sufficient evi-dence that Atlanta is out for the pennant. Mr. R. C. Bosche, who has been a strong factor in the Southeastern League and who had the following to say about the outlook

for the national game in the south this "I am very enthusiastic over the outlook for baseball during the coming season. The clubs of which the league is composed are in the hands of men financially able to vouch for their welfare and maintenance.
I have received official notification from President N. E. Young, of the National League, that the Southeastern has been granted protection and reservation, class

D. for the year 1897. "There is some talk of increasing the league to eight clubs and this could easily be accomplished by the admission of Montgomery, Ala., and Columbia, S. C. However, I would sooner have six good clubs which I know would carry out their obligations than an eight-club league in which there might be one weak spot.

"As for the financial success of the league the responsibility of those who hold the franchises in the different cities. warrants me in saying that the outlook is very bright. Especially so when we consider the fact that Macon, Savannah, Charleston and Augusta have not had baseball since 1893 and the public is anxious

I have been authorized to bring down "I have been authorized to bring down to the cities which are interested in the Southeastern League some of the northern clubs which will practice during the spring. I have already secured two clubs from the National League, two from the Western League, one from the Virginia League and one from the Eastern League. These clubs will engage each other on our grounds in the different cities and the lovers of the national game will have a treat."

Mr. Hanna's Promises

The New York Evening Post, which has no concealments to make in regard to its financial views, deplores the state ment made by Mr. Hanna in a conversation with a reporter that "the farmers and laborers in the western cities were won over to the support of McKinley by explaining to them that we stood on the St. Louis platform, which advocates bimetallism under an international agreement, and that we were not gold monometallists."

We have no doubt that Hr. Hanna se cured enough votes in this way to assure the success of Mr. McKinley: but Editor Godkin's paper, which is nothing if not strictly, even blindly, virtuous, is not at all satisfied with this wholesale deception of the American electorate. The Evening Post declares that "nothing has done more to bring us to our present pass than the persistent maintenance of the belief that there is going to be an international conference at which European nations will agree with us to establish and maintain a double standard." The Post declares, and we believe truthfully, that there is not the slightest reason to expect any such

To cap the climax, our contemporary declares that the great objection to an international agreement is the notion it entails that several nations can by treaty bring silver to par with gold is "Bryanism pure and simple"-a fact that we field Republican during the campaign.

not gold monometallists, but wedded to international bimetallism. It seems clear that if Mr. Hanna had not practiced this piece of political deception, gold ometallism would not have won the substantial victory that is claimed for it; but Editor Godkin seems to lose sight of this fact altogether.

With resspect to international bimetallism, The Constitution agrees heartily with The Evening Post. There is less prospect of an international agreement now than there ever has been, and there never has been a day when those who proposed it believed in it as a possibility. As a matter of fact, the most of the arguments aimed at independent bimetallism lose none of their force when aimed at international bimetallism. If it would be "robbery" and "repudiation" and "anarchy" for the United States to remonetize silver, international bimetallism would simply be the means of making all the civilized nations parties to these crimes. According to the arguments of those who pretend to believe in international bimefallism, it is better to disappear in a quagmire than to flounder about in a mudhole. We gladly leave them to their choice in the mat-

Meanwhile, it is not to be forgotten that Mr. Hanna has made his explanations and his promises were the means of Mr. McKinley's election, and we shall await with some degree of curiosity for the first symptom of an intention on the part of Mr. McKinley to indorse Hanna's explanations and make his promises good. It is true that the explanations and promises were for campaign purposes only; but this campaign has been different from all other campaigns, and the prospect is that the people who voted for "international bimetallism" will insist on seeing it materialize.

While there is not the slightest probability of an international agreement, yet the fact remains that Mr. McKinley will be in a position to lay the international bimetallic ghost for all time. If there is anything in the claim that the European nations are eagerly awaiting an opportunity to restore silver to its ancient function, Mr. McKinley can easily bring the matter to a head. On the other hand, if nothing comes of the matter after all the promises that have been made, such papers as The Evening Post will not be worried and fretted by talk about international bimetallism four years from now.

In short, Mr. McKinley will have every opportunity to prove the claim of his friends that he is the advance agent, of prosperity. He will have every opporto prove to the people that the gold standard is a good thing, and that a cfive tariff, like Thingimbob's livcures all ills. Prosperity is such a desirable thing at this time that we

are sure mone of Mr. McKinley's political opponents will undertake to throw obstacles in his way. He will have at his back a congress pledged to support him in all ways, and the silver senators in case they should hold the balance of power, have declared that they will not stand in the way of any of Mr. McKinley's plans for the resumption of prosperity.

Has the Sultan Relented?

It is rather premature to say that a satisfactory understanding with the Turkish sultan has been reached, and yet there are indications which clearly point to a solution of the promblem raised by the Armenian atrocities.

Within the past few weeks the Euro pean powers have brought a strong influence to bear upon the sultan and there is every reason to believe that some thing definite has been accomplished.

In speaking of the Turkish question and the sultan's attitude toward the European powers The Philadelphia Public Ledger observes:

The Turk is naturally a fanatic who believes that the extirpation of heresy is most easily accomplished by wiping out the heretic. Hence he pursues the persecution of unbelievers with a savagery which is to him a concomitant of his religion. While the powers have been by turns

coaxing and threatening the sultan to keep his promises of fair dealing toward his Christian subjects, the porte has, hitherto, exhibited no sincere effort to keep faith. It is now asserted that the government has come to the conclusion that further delay may result in a partition of the empire among the powers and that two reforms will be instituted concurrently; the first having relation to the obligations of the Berlin treaty with respect to religious toleration, the second embodying the policy set forth in the Turkish constitution of 1876, which, though promulgated, has never been put in force. It is declared that by enforcing the new constitution the sultan wil enlarge the personal and political rights of the Turks themselves and pave the way for their acquiescence in the new liberties granted to the Christians with-

in the empire. It is possible, of course, that the sultan is merely playing a shrewd game and that just as soon as the situation in Europe clianges and other issues are brought to the front, the butchery of the Armenians will be resumed with increased vigor.

Finding Him Out.

The Springfield Republican is either finding John Sherman out, or, having found him out some time ago, is now putting that fact on record. It says:

If constancy and persistency in repudiing himself is to be described as a statesman's virtue, we have no hesitation in pronouncing Senator Sherman the greatest statesman that ever lived.

This will not be relished by The Boston Herald, which has frequently declared that John Sherman is our very greatest American statesmen; and yet those who have followed the Ohio senator's career with any degree of curiosity or interest will be ready to say that The Repubilcan puts the matter very mildly.

The Constitution has, on occasion. criticised Mr. Sherman very harshly on account of the persistent way in which he avoids telling the truth in particular instances. We have begun now to believe that the harshness was undeserved. whispered into the ear of The Spring- It seems certain that the man is not responsible for his blindness where the It is rather curious, however, that Ed-truth is concerned. Undoubtedly no sane itor Godkin never paused to reflect what | public man would dare to make some the consequences would have been if of the statements that John Sherman Mr. Hanna had not taken the pains to has made, with full knowledge that exwin farmers away from Bryan and posure would immediately follow. Yet persuade them to vote for McKinley by the Ohio senator has been engaged in telling them that the republicans were this business for more than a quarter of a century-making a statement one day and denying it the next. He has been on all sides of every great public question, and has denied it in the face of the record. He has taken a position one day only to deny on the next that he ever held it.

> In view of these things, charity would suggest that the man has a mania for avoiding the truth, and that he is not morally responsible for the revolting exhibition that he makes of himself.

> We doubt if in all history there can be found a parallel case. And vet Mr. Sherman is not insane, nor mentally unbalanced, for he has the wit and the shrewdness to be found always on the side where the most money is to be found:

> In this respect, he is the most remarkable public man the world has ever seen.

No Plum for Thurston.

Senator John M. Thurston, of Nebraska, is not apt to be rewarded with a cabinet position for the bitter and offensive partisanship which he has displayed in the late campaign.

As it happens, the legislature of Nebraska is, by a safe majority, in favor of bimetallism, and should this representative of trusts be elected to a cabinet portfolio, a free coinage advocate would be immediately chosen to succeed him. It is safe to assume, therefore, that Senator Thurston will continue to exercise his lungs in the senate, at least for the

Although the senator has endeavored to conceal his disappointment underneath the guise of a careless indifference, it is nevertheless evident to those who are intimate with him that his grasping ambition has sustained a severe shock. If such is the case, the free coinage advocates of this section have no sympathy to waste upon him.

There is a queer political complication in North Carolina. The old darky says that of late he has been greatly disturbed by voices, which seem to come from the spot where the unfortunate girl is said to have been murdered. The voices are very distinct, he says, and are first heard singing; this is followed by loud and boisterous talking, which changes later to shrieks of distress. The voices then he shricks of distress. The voices then, he says, seem to leave the spot and cross the river to his cabin. Nobody is visible, but the weird revelers, he says, come in and

SOME LEGISLATIVE PACES Fulton county is well equipped in rel sentatives-direct and indirect-in this gen eral assembly. In addition to the sple delegation in the house regularly chosen by this county, there are three other gentlemen who can be relied on to take a personal in terest in whatever affects this county. One of these is Senator Golightly, whose home is in Campbell, but who has a law office here in Atlanta, and is well known here; the others are those clever and active young men who comprise the DeKalb delegation. Messrs. Henderson and Morrison, V in close touch with the people and affairs of

Senator Golightly represents the thirtysixth senatorial district. He was born in Campbell county, Georgia; was reared on a farm there, and received a fair Eng-

lish education in the schools of that county. He worked on the farm until he was twenty-one, at which time he procured a position as clerk in a store at Fairburn. In 1874 he came to Atlanta and took the road as a commercial traveler for Stewart, Wood

& Fain. He follow- GOLIGHTLY. ed this business until 1878. At that time nad accumulated a small capital from the savings of his salary and he entered into in Greenville was a success and at the expiration of three years he had accumulated apital sufficient to run a considerable job oing business and was traveling several nen in Georgia and South Carolina partners in this business were Z. T. Dobbs, now of Dobbs, Wey & Co., of Atlanta. In 882 Mr. Golightly sold out in Greenville and in March, 1893, opened a wholesale business in the city of New York, dealing in crockery, and selling goods in all the southern states. In this business W. T. Roberts, now of the M. C. Kiser Company, was his partner, the style of the firm being Roberts & Golightly. During 1883 and 1884 they had from seven to eight salesmen traveling the southern states. In the spring of 1885 both nembers of the firm tired of the norther climate, and wishing to return to the south, the business was closed out and both nembers returned to Georgia.

Senator Golightly went back to the coun-y of his birth and settled in Fairburn. He read law under Colonel L. S. Roan, and was admitted to the bar in August, 1885, at Fairburn, Judge Simmons, now of the su-preme bench, presiding. In 1886 he formed partnership with Colonel L. S. Roan, and ntered the practice at Fairburn. This partnership continued until 1889, at which time it was dissolved. Colonel G mained in the practice at Fairburn, still has a practice there, and still lives there, but in October, 1893, he opened an office in Atlanta, forming a partnership with J. H. Longino and this partnership still continues, The senator is now actively engaged in the practice, his home being in Fairburn and practice being in Campbell, Fayette and Fulton counties.

While always active in politics he has not sought office but preferred to work for his friends. He was mayor of the town of Fairburn for two terms without opposition clined. He was one of the first of his section to advocate the free coinage of silver, from his district. Bion Williams, his populist opponent, two years ago had appa carried his district by a majority of votes, but on contest was declared by the senate defeated by something over 100 votes, Williams was nominated again against Mr. Golightly, and many thought the race would be close, but he was defeated, Golightly receiving a majority of 2.030 votes and carrycounty in the district.

Senator Golightly is chairman of the committee on corporations, is on the general and special judiciary committees, the com-mittee on appropriations, asylums and peni-

tentiary and other committees. Dr. J. Northrop Smith, who now represents the county of Crawford, was born in

1843. His father, a prominent physician, was a native Geor-神る was a native of the city of Philadelphia, Pa. Dr. Smith is a graduate of the Georgia Military institute, at Marietta, Ga. He entered the confederate army the 27th day of April, 1861, as first

He was wounded several times. The war left him penniless and by energy and perseverance he has accumulated a nice fortune. He entered his profession since the war and ranks as one of the first physicians in country practice. He has a large farming interest and other investments. Dr. Smith is now serving his fourth term in the Georgia legislature. He served two terms with distinction as chairman on blind asylum. Dr. Smith is a rock-ribbed democrat and stands as leader of true democratic principles in his section. He has been spoken of for congress in his district. He is a modest, unassuming gentleman of the old school is very popular with his fellow membrrs.

Colonel B. F. McLaughlin is one of the ablest lawyers in the present legislature and has, both on this account and besonality, taken a high stand in the lower house. Colonel McLaughlin is one of the representatives from Meriwether. He is one of the very able and prominent law-

yers who have made the Meriwether bar famous. Colonel Mc-Laughlin is at the head of the firm of McLaughlin & Jones who do one of the largest law practices in Georgia. The colonel has always been an active democrat, but has never been candidate for office. In looking aroun for the strongest possible ticket to re-deem the county from populism the demo-crats of Meriwether succeeded in inducing Colonel McLaughlin and Dr. become the nominees, and they undoubted-ly did the right thing.

The representative from Macon county is holding his first political office, although he has always been an active

and enthusiastic democrat. Hon. L O. Niles is a native of New Hampshire, but he came to Georgia as a boy and has resided in this state for over forty years. More than thirty of that time has been spent in Macon-He lives at

Mr. Niles is a Mason and has been a member of the grand lodge for over twenty-five years. He was for a number of years chairman of the democratic executive committee of his county. In the October election he defeated the populist nominee, Mr. Morgan Chastain, who was considerably stronger than his party by nearly 300 votes. For seventeen years he was a prominent merchant at Marshallville, but of late years he has confined himself to his farming interest. He is one of the most substantial members of the house, and although a new man, has already taken a high a new man, has already taken a high

He returned to Sandersville, and has been practicing medicine ever since. He is one of the ablest doctors in since. He is one of the ablest doctors in his section of the state. He has never been in politics, although he has always been an active worker for democracy. The fact that Washington was close politically resulted in bringing out the strongest possible ticket and Mr. Rawlings and Captai derson, his colleague, were selected. Their splendid victory, it is believed. has Washington county permanently in the democratic column.

Mr. Duffy certainly has the confidence and esteem of those who know him best as is shown from the fact that at James precinct. his home precinct, where there was 84 votes cast, white and black, he got 84 votes.

Mr. Brannen was a presidential elector in 1876; has been chairman of the democratic executive committee of his county. He is a successful lawyer and able writer on economic topics. One of the ablest contributions to the silver literature made during the past campaign was a pamphlet written by him which proved exceedingly popular and was used extensively.

WINTER LYCEUM

A Movement on Foot To Organize a High Class Course.

WELL KNOWN MEN BEHIND IT

It Is To Be on the Co-operative Plan. All the Receipts To Go to

The work of orgainizing a permanent lyceum lecture course on a large scale in Atlanta is steadily progressing. The movement has behind it the progressive and intellectual element of the city, by whom it will be officered and directed, the element that always carries to success any enterprise undertaken in Atlanta. The following address has been made by the following

Charles A. Read. George S. Lowndes F. S. Dennis. The success of this movement means a great deal for the intellectual interest of Atlanta. It means a permanent organiza-tion that will bring to Atlanta annually at a wonderfully low cost from ten to twenty of the leading thinkers, orators and writer of America in platform lectures. The hap-hazards, or chance coming of lecturers will cease, but there will be select lectures given unfailingly at regular intervals. The system is a co-operative one, where there is no individual or private gain, the system upon which all the great popular lecture courses of the world are established. All receipts from all sources will be put into lectures and other lyceum entertainments. The larger these receipts the more the enter-tainments. It is by this plan that such cities as Cincinnati have more than twenty of the greatest lecturers of the time annual ly at a cost of only about 5 cents per ticket That is the plan that will be adopted in Atlanta. The plan in Atlanta is to get a membership of at least 300 to the Atlanta lyceum course at \$5 per member, each mem-ber being given two annual admission tick-ets, aditting to all the entertainments. The will give a minimum of 10 numbers for this season, which will make the cost only accents per ticket. In other words, organization will be made when 300 members are not be allowed to stop at 300, but will be pushed as far beyond that as possible. All members secured above that number means just that many more lectures at no more cost to each member. If 400 members are secured from twelve to fourteen lectures will be given; if 500 members, sixteen to eighteen lectures will be given; if 600 members, twenty lectures will be given—all for \$5-re

nore: no less in any event. Then this is the table Members ... No. lectures. ... Cost per ticket. 12 to 14 20 to 16c Beginning today a canvass will be

During the day, Saturday, a large crowd of the friends of the moonshiners congregaied in Villa Rica and made angry threats nst the officer, and when the still was ared on the train Saturday night the depot was surrounded by them and for a few ites it looked as if a pitched battle ould ensue between the owners of the still nd the revenue officers.

Mr. J. H. Lane, who aided Officer Moore, wes in Villa Rica, and has reported severstills, and it is said that the moonshin s are very bitter against him and have requently made threats. Saturday night was stated in Villa Rica that he would waylaid on his way home by the mooners on account of the action he had ken in reporting the captured still. The shiners were very angry and openly atened to fire upon the crowd that colected about the still.

As the train stopped at the little station ficer Moore hastily placed the still on the rain and jumped aboard. He arrived in by the government authorities. A number of arrests will probably follow

ha few days and the effective work of sturday night will have a tendency to Panding county.

Still Was Located Friday. Early Friday afternoon Revenue Agent

Pat Moore received information from Mr. J. H. Lane, of Villa Rica, that the still which was known to the officers as "Flying Betsy" had been located. The still had been given this name on account of the rapid movements made by the moonshiners erry time a raid was planned. The moon-thiners would be informed of the coming of the officers and when the latter would reach the place that had been pointed out, the still would be missing. Time and again raids had been made, but each time the owners of the still would remove the still before the

As soon as the information was received Friday, Officer Moore immediately left for Villa Rica, where he was met by Mr. Lane. When Moore alighted from the train a spy of the moonshiners mounted a swift horse and dashed off into the country to notify the moonshiners of the arrival of the revenue officer, but the spy never dreamed that a raid was to be made on "Flying Betsy," and he notified the owners of another still in a different part of the county.

Officer Moore and Mr. Lane secured a mack and drove over into Pauliding country.

We walked through the woods and into the swamps, shally reaching the still at 1 o'clock Saturday morning.

The Still Was Deserted. "Mr. Lane and myself," Officer Moore continued, "walked directly upon the still the we have been looking for more than year. I saw it was the 'Flying Betsy' at Isance.

No one was at the still. The fires had been drawn from the furnace, but the

He drew his platel, and holding it in the faces of the moonshiners, told them that he would kill the first man that made that he would kill the first man that made any effort to take the still from the depot. When Officer Moore returned to Villa. Rica he found the little town was greatly excited, and the crowd of moonshiners had increased instead of diminishing. They expected that they would selze the property and take it from the officer when the train that was to carry it to Atlanta arrived. Then it was that trouble seemed involved. The crowd fell back. There were probably twenty men in the crowd, while there was no one with Officer Moore except Mr. Lane. Presently the town marshal arrived, and he stated that he would render any assistance if progressing. sistance if necessary.

While the men were discussing the situa-

tion, the train arrived and Officer Moore placed the still on board and started for Atlanta.

Bitter Threats Against Lane. Mr. Lane lives in the outskirts of Villa Rica and has rendered valuable services to the government officials in reporting stills in the locality.

in the locality.

"I am uneasy about Lane," said Officer Moore, "for the moonshiners are exceedingly angry and may attempt to have revenge upon him for the loss of the still.

"When I left him Saturday night in Villa Rica the crowd was taiking in angry tones about him, but he is heavily armed and is able to take care of himself in an emergency. He is brave and fearless, and would give the moonshiners much frought if there give the moonshiners much trouble if they were to assault him.

Officer Moore said the people of Villa Rica were in sympathy with him and wanted the law upheld, and were not responsible for the threats made at the de-

pot.

"It was only the crowd of moonshiners that made threots. The citizens of Villa Rica, and, in fact, of the county, are law-abiding men, and it is only the crowd of blockaders that caused me the trouble."

The still will probably be destroyed by the government authorities today.

"'A Wife's Secret,' a realistic comedydrama, depicting the ups and downs, joys and sorrows and all the varied phases of virtue and vanity, was the bill of the Florence Hamilton Company at Staub's theater, and a packed house applauded the hero and laughed at the funny man to their heart's content.

EDISON'S VITASCOPE HERE.

It Will Be Shown Tuesday at the Columbia Theater.

Edison's greatest invention, the vita-scope, has been brought to Atlanta and it will be shown all this week at the Co-lumbia theater in conjunction with the Florence Hamilton Company, which holds the boards at that theater during the en-tire week.

The following from The New York Re-

tire week.

The following from The New York Recorder gives some idea of the success the vitascope had in New York:

"The first public exhibition of Thomas A. Edison's wonderful vitascope was given last evening at Koster & Bisl's, and was a great success. The vitascope is an improvement on the kinetoscope, and adds life and vitality to the figures shown upon a life-size scale. The electrical apparatus was arranged in two adjoining balcony boxes, and the apparatus was operated by one of Mr. Edison's experts.

"Lights are arranged to throw the figures upon a canvass on the stage, which was framed to resemble a picture. When the theater was darkened, life-size pictures were projected upon the canvas, and were so real and the motions were so natural that it was hard to realize that they were not actually alive.

"Among the exhibitions given were the Leigh sisters in their umbrella dance; a soldier's march. from "The Milk White Flag." a skirt dancer, with the beautiful colors, lights and shades; an animated argument over the Monroe doctrine between Uncle Sam and John Bull; an amusing prize fight, and a section of the Jersey coast in a heavy storm.

"Every scene was an exact reproduction in color, size and action, and a message of congratulation was sent to Mr. Edison."

The Hewett minstrels will open the Imperial theater tonight, under the new management of Mr. Wheeler. The Diamond News, of Kimberly, South Africa, has the following to say:

"Notwithstanding but limited notice of this performance had been given, there was a crowded house on Saturday night and we have no doubt that during the stay of the Hewett Musettes in Kimberly the town hall will be packed. We can safely say that every one who has seen this delightful drawing room entertainment will wish to do so again for there is not the slightest tinge of vulgarity about it.

REPUBLICANS URGE HIM FOR THE PLACE Colonel Buck's Absence from the City at This Time Is Said To Be

As a reward for his services to the republican party in the recent national campaign Colonel A. E. Buck may probably be tendered a cabinet position by the new admin

Great pressure, it is said, is being brought to bear upon the administration in behalf of Colonel Buck by his friends, and a petition urging his appointment is now being circulated all over Georgia for signatures. The petition has been in circulation several days and hundreds have signed their names, asking that Colonel Buck be made a member of President McKinley's official family as a recognition of his work in this state in the interest of the republican ticket. The friends of Georgia's political republican boss are actively at work in his behalf and instead of denying the rumor they insist that Colonel Buck will be selected as one of the stars of the new cabinet constellation.

They are outspoken in their requests for Colonel's Buck's recognition and every effort is being made throughout the state for the success of their petition.

Colonel Buck's absence from the city just at this time is said to be very significant. He left several days ago, ostensibly for a trip to New York, but it is claimed that he is now in the neighborhood of the McKinley home, in Ohio, where he has been in conference with Mark Hanna and President-elect McKinley in regard to the sit-

colonel Buck has been the republican boss in Georgia many years. He has won in this last fight over all opponents. While Major Hanson, of Macon, has been regarded as a cabinet possibility, there are many who say the Buck movement is sweeping the state. They say the presi-dent-elect has been informed of the situa-tion, and the services of Buck have been brought to his attention.

The petition which was started several days ago in the interest of Colonel Buck is said to be loaded down with the signatures said to be loaded down with the signatures of the republican leaders of the state. The petition will be sent throughout the south. When all the signatures that can possibly be secured in Georgia are given, the petition will be given a tour through Alabama, Florida, South Carolina and even into Tennessee, the home of Colonel H. of the new cabinet.
The friends of Major Hanson are at work it is said, but the friends of Colonel Buck claims they have the ins and that their fa-vorite will win at the gcal.

The friends of Colonel Evans, the republican boss of Tennessee, are claiming the fight. Colonel Evans is said to be in close touch with the new administration, and many regard him as the man who will be hany regard min as the han who who honored among his brethren in the south. Should Evans be turned down, Buck's stock would take a big jump; and should Buck be declined, it may be Evans or it may be Hanson. Both are fighting hard for the po-sition and both say they will win.

These Indorse Colonel Buck. J. W. Lyons, of Augusta, the national committeeman from the state, says: "I think the result in this state as engineered and brought about largely through the management of Colonel Buck stamps him as one of the ablest and shrewdest leaders of the republicans south of Mason and Dixon's line.

"Indeed, I believe Georgia may now be regarded as a doubtful state to democracy, and all of this was accomplished by the superb management of Colonel Buck. Where could President-elect McKinley go to in this southland to find a better counselor for his cabinet than Colonel Buck?"

Say Buck Is the Man.

J. H. DeVeaux says Colonel Buck is the man to be honored by the new administration. He says his services entitle him to a cabinet position and the recognition of his work would be but a deserving tribute. DeVeaux says:

"Colonel Buck is without doubt a tireless worker for republican success. His friends desire to see him a member of the cabinet and we all know he is thoroughly competent and worthy of the honor."

These sentiments were joined in by H. L. Johnson, T. M. Dent, M. C. Parker, S. W. Easley, C. C. Wimbish, Jackson McHenry and others.

He believes with Colonel Buck in the cabinet we would get a million-dollar postoffice and courthouse; that Georgia would receive favors that would surely make the state republican in the future. He believes him to be the logical cabinet man of the south, because of services in making sure the nomination of McKinley.

The A. Rucker takes a square stand for Colonel Buck. Says he:

"Colonel Buck stands pre-eminently the leading republican of the south. He has filled in times past, with credit to the positions, the people and himself, many places of honor and trust. MR. RAWLINS REPLIES

He Corroborerates The Constitution's

Interview About That Meeting. A few days ago The Constitution contained an interview of Mr. J. C. Rawlins, clerk of the superior court of Dodge county, in which that gentleman told of the mass meeting which had been held at Eastman and about the instructions in favor of Governor Atkinson for the senate. The Times-Journal at Eastman, in its last issue, contained a leading article declaring that The Constitution had misrepresented Mr. Rawlins. It declared that the interview was absolutely and totally incorrect. Mr. Rawlins writes the following card on the subject:

absolutely and totally incorrect. Mr. Rawlins writes the following card on the subject:

Eastman, Ga., November 12, 1896.—Editor Constitution: The Times-Journal has appeared as usual with a column attacking The Constitution and Captain Howell. On an interview which was published last Monday in The Constitution The Journal says The Constitution or myself has perverted the facts of the case. Now, I want to disabuse the minds of all concerned that The Constitution substantially published the statement as I told them and I am here again to say in every particular the interview was about correct. I will admit now that the so-called notice did have embodled in it that it was to get an expression for United States senator, and I say now, and have authority for it, that a large majority of the people present were there at a special request from Mr. E. B. Milner, who was an applicant for solicitor general of our county court, who told them, or many of them, to indorse Atkinson would help him in procuring the appointment. I say further that there was not more than firty people in the meeting and I don't think that more than forty of them voted for the resolution to instruct our representatives and senator to vote for Atkinson. The chalrman saw that the majority was in favor of it and did not put the other side of the question at all. Many people who voted in the so-called mass meeting told me that they were opposed to Atkinson but was there and voted for the resolution solely for and on account of Mr. Milner. It is an absolute fact that the people of Dodge county are opposed to Atkinson but was there and voted for the resolution solely for and on account of Mr. Milner It is an absolute fact that the people of Dodge county are opposed to Atkinson but was there and voted for the resolution solely for and on account of Mr. Milner It is an absolute fact that the people of Dodge county are opposed to Atkinson by a large majority. BOOZE AND BLOOD.

Decatur Street Was Wild Saturday Night.

Night.

It seems to be an invariable rule that when times are good Decatur street celebrates by getting drunk. As a result of the better feeling apropos of McKinley's election, the time-honored custom prevails more strongly than ever, and is giving the police no end of trouble.

Saturday night Decatur street was boiling. It seemed as if every negro in Atlanta had imbibed just enough booze to make him mean, and had gathered on that famous thoroughfare. him mean, and had seem mous thoroughfare.

surged up and down the street like a whirlwind, bidding defiance to law, order and the police.

Decatur street has not been so wild for years. By 6 o'clock the thoroughfare was crowded. As the minutes flew by and the saloons continued to empty their hordes of drunken humanity on the sidewalks, there were scenes of the wildest confusion and general rowdyism was the order of the hour.

The police did gallant work, but the odds were too great against them. Dozens of arrests were made and dozens of negroes were locked in the station house on the charge of disorderly conduct.

Between the hours of 9 and 10, while every hoodlum was rushing for his last drink, the patrol wagons were kept constantly busy answering calls. Decatur street was lined with the black marias carrying the dusky prisoners to the grim station.

OFFICER DOBBINS'S THRILLING RESCUE

Entered the Burning Furnace and Fought the Negro To Save His Life-How It Occurred.

A colored lunatic by the name of Henderson Hunnicutt came near setting the station house on fire Saturday night and cre mating himself. His escape was a miracle. Had it not been for the alertness of Turnkey Dobbins a serious conflagration would have undoubtedly resulted.

The negro is not violently insane, but at times becomes unmanageable. It was only Friday night that he attempted to knock the turnkey in the head with a heavy chain while being changed to one cell from an-

of some match heads: This lunatic's cell, where he was confined, is padded with heavy matting stuffed with excelsior.

About 8 o'clock he scratched a hole in the padding and got out a large bunch of shavngs. Piling the fuel in one corner, he set waiting for his own cremation.

The flames shot up to the ceiling of the

cell, and soon caught the padding on the side of the wall. In an instant the whole cell was filled with a dense smoke, and lames shot through the iron bars. The stable of the department is situated ust a few yards from the prison, and the

dow opening from the lunatic's cell. It is to this fact that the negro owes his life. Several officers were sitting in the stable loor at the time and rushed to the burnne was confronted by suffocating smoke

ation. The negro used his herculean strength, and fought the turnkey with the erocity of a tiger. All the while the flames were growing fiercer and fiercer, and the faces of both men were scorching. Dobbins made one mighty pull at the ne gro's arm, who released his grasp on th iron bar, and fell into the corridor through the door of his cell, faint and insensible. He was dragged into another cell in anoth er corridor, while several officers ran for water.

After an exciting battle with the flame they were finally extinguished and the unatic's cell now remains charred and blackened on the inside. Neither Dobbins nor the negro was seriously injured.

STAR COURSE NEXT THURSDAY.

Swedish Quartet and Other Artists Will Appear at the Y. M. C. A. The Swedish quartet will appear at the Young Men's Christian Association next Thursday night. With them will appear Young Men's Christian Association next. Thursday night. With them will appear Miss Webb, who will perform on the violin, and Miss Shoemaker, who will give a deisartean exhibition. This company of entertainers is very popular in this city, and they always meet with a fine reception.

The company performed at Charlotte, N. C.. last Friday night, and The Charlotte Observer has the following to say of them:

"As a quartet, the Swedes more than sustained their reputation, while the company has been greatly strengthened by the addition of Misses Webb and Shoemaker. It would be almost out of place to attempt any criticism of the ensemble singing of the quartet, it was so nearly perfect. Their voices, each superb, blend in such perfection that their sustained notes sound like one rich, round, full tone; harmonious sweet beyond conception. The soloists of the evening were Messrs. McPherson and Laurine. Mr. McPherson has a robust bass voice of unusual compass and strength, and his singing last night will undoubtedly make him an ever popular basso in Charlotte. Though utterly tired and worm out Mr. Laurine sustained the excellent reputation made here two years ago. His voice is sweet, almost devoutly so, and he uses it like an artist."

The governor made an earnest talk and commended highly the work of the mission. Dr. A. R. Holderby and Colonel W. A. Hemphill also made short and interesting talks. Dr. Holderby addressed the little one present, who were quite numerous, and they seemed to be intensely interested.

All the speakers referred to the noble work of the mission and praised Mr. and Mrs. Barclay for the self-sacrifice and devotion on their parts that had caused the

in English Literature." Bible in English Literature," is the a lecture to be delivered tonight by Dr. C. P. Williamson in the auditorium of the Young Men's Christian Association. Dr. Williamson, one of our most popular preachers, is also a brilliant lecturer, and will undoubtedly give a very entertaining and instructive lecture. Those who heard the doctor on this subject at the Silver Lake development last summer propounce it the doctor on this subject at the saventake chautauqua last summer pronounce it one of his best. His handling of the theme betrays a wide extent of reading and the lecturer's ability to detect the subtle influence of the Bible permeating the most magnificent literature the world has ever seen. All who listen to it will enlarge their knowledge of our literature, and will not fall to increase their reverence for the king of books. Admission 25 cents.

INTERESTING SERVICES HELD

Bishop Delivered an Instructive Dis course on the Subject of Apostolic Confirmation

at Teccoa yesterday Bishop C. K. Nelson preached an instructive sermon upon th text: "Let us go on unto perfection." His subject was, "The Holy and Apostolic Rite of Confirmation."

Bishop Nelson spoke earnestly upon his subject, treating it from various standpoints. His sermon in substance is as follows:

"It is not, in our judgment, inappropriate to this occasion to set forth one more dis-tinctive feature of our church, inasmuch as it is one which so constantly and so obviously meets the eye and ear of the who worship with us as one our marked peculiarities. I refer to our practice of the hely and apostolic rite of confirma-

"This subject, like the observance o

"This subject, like the observance of Sunday instead of Saturday, the communion of women, the form and methods of divine service must logically be examined in the following order:

"First, historically; second, scripturally; third, comparatively. Plain reason demands that we face the issue by accounting for a practice which for fifteen centuries has been in common vogue among all Christians, east and west, and is today customary among about nineteen-twentleths of all the religious schools which are established to promote the doctrine of Jesus Christ. It will not answer to blink or to say we do not care what others think or do. How do you explain the fact in reference to the laying on of hands, confinmation, chrism, or by whatever name you may elect to call the rite that so many people today and so many for all the ages of Christianity, and all up to the sixteenth century observe and have observed this usage as regularly and as constantly as they do preaching, baptizing, communing or keeping the Lord's day? Now the explanation is perfectly simple; the deniers thereof will have to present their solution, for we fail to find it anywhere.

"It is not the question of the affirmation."

present their solution, for we fall to find it anywhere.

"It is not the question of the affirmation or denial of any spiritual gifts. I have already pointed out that we accept the bestowal of God's gifts, spiritual as well as temporal, in manifold ways and by divers instruments. It is to attain the specific gift of the Holy Ghost in a particular manner and for a specified purpose that not only the orthodox, but heretics, have been particular to observe an ordinance of the same general pattern as one of the institutes of Christ's religion. Our answer is that all these people have believed that it is a rite of prophecy and divine sanction with a strong probability in favor of its being commanded of our blessed Lord on the ground that we cannot reasonably conceive that the first apostles of Christianity would presume to be so bold as to establish a new rite for universal use immediately, without some word or act communicated to them by God.

lish a new rite for universal use immediately, without some word or act communicated to them by God, the Son, during His earthly lifetime, or by God, the Holy Ghost, His vicar upon earth.

"Or, on the lowest ground, the authority which was sufficient to change the day of worship from the seventh day to the first; to admit women to communion, and to

souls of men.

"The former, and not the latter, is the basis of our practice, and of those who amid the disappearance of many peculiar-lities of time and locality have preserved this act, unaltered in its substantial features through nearly nineteen centuries, with singular unanimity. We claim the specific gift, because we obey the specific rule of Christendom and administer the rite in exact conformity with the apostolic method in scripture and in history; namely, by (1) allowing its ministration by the highest order of the ministry only, him whom we call the bishop; (2) requiring baptism and repentance—conversion—as prerequisites; (3) demanding previous and sufficient indoctrination, and (4) using as our method the laying on of hands with prayer for the Holy Ghost; and hence we claim that to those who are prepared (5) the Holy Ghost—spirit—is given for the development of the Christian life toward perfection.

"We maintain that the argument from listory and reascnable certainty of the loyalty of the first apostles is conclusive and irrefragable; and yet we are not forced to rely upon this alone, for there is to be considered the scriptural view, which is former, and not the latter, is the

and irrefragable: and yet we are not forced to rely upon this alone, for there is to be considered the scriptural view, which is by no means so dim as some people imagine and as some teach who, misled by poor scholarship or falling into the temptation to party leading, confuse the minds of their hearers by reference to a single word in the scriptures as though because of its appearance in a different connection (Acts xv, 41.) any fact could be disproved. We do not hang any argument upon the word confirmation in the English version. And to attempt to deny the holy rite of the laying on of hands (confirmation) by discoursing upon the method which the apostle used to confirm the churches is about as reasonable as to deny the communion of the people because the heathen. Felix, communed with Paul in order, if possible, to secure a fee. (Acts xxiv, 28.) "It is amazing to find intelligence and character stooping to such a trick of language while engaging in expounding the blessed scriptures.
"Confirmation is not 'a substitute of (for) a personal confession of Christ by a penitent believer before baptism." It is the particular spiritual act in which 'a penitent believer makes his 'personal confession of Christ' publicly; ratifies the vows of earlier years and receives the strengthening grace of the blessed Spirit to direct and assist his human will and to increase all virtue. "Let me, in conclusion, invite your attention to the names of those many renowned and godly men who, perceiving the great loss to a part of the Christian world by the abandonment of this scriptural and apostolic rite, have been candid enough to deplore its disuse.
"Calvin, Beza, Osterwald, Piscator, Rivet, Hertzog, of the continental divines; Gouge,"

tolic rite, have been candid enough to deplore its disuse.

"Calvin, Beza, Osterwald, Piscator, Rivet, Hertzog, of the continental divines; Gouge, Calamny, Milton, Hamner and Baxter, of English non-conformists; Dr. Cohnan and others of the Congregationalists, numerous assemblies and councils of various bodies, by the seventh-day Baptists and six-principle Baptists confirmation is in use. Among the Weish and English Baptists, such men as Vassar Powell and Benjamin Keach were its advocates; of American Baptists, Thomas Olney, about 1898, was the first to oppose it, and not until that year was it laid aside by the regular line of Baptists in succession from Roger Williams. Benedict, the Baptist historian, writes: "The churches were all strenuous for the laying on of hands." (History, vol. 1, p. 590, edition of 1812.)

writes: "The churches were all strenuous for the laying on of hands." (History, vol. 1, p. 50), edition of 1813.)

"It is quite apparent that the laying on of hands was of very general prevalence among the first Baptists in this country. But over and above this practice, we have their declaration in favor of the rite in their first confession.

"We believe that laying on of hands, with prayer, upon baptized believers as such, is an ordinance of Christ: The proof-texts are: Hebrews vil. 2: Acts vili: 17, 18: xix, 6: Ephesians i: 13, 14 ("Confession," Philadelphia Association, September, 1742: chapter 35.) The Treatise of Discipline orders the reception into communion after baptism and the imposition of hands. Of the testimony to confirmation on the part of the Methodist, it will serve to refer to menof such eminence as John Wesley and Adam Clarke, and many others, who viewed this subject in its proper aspect as a part of the necessary doctrine of the religion of Christ.

"In the light of such authorities as we have quoted, or to which we have referred (and the number may readily be multiplied), these queries are apropos:

"1. Does not becoming modesty of those who are teaching as ministers of Christ demand that some respect be paid to the registered convictions of the truly learned and religious men of their own communion? Or, is every preacher sent to give out his own individual ideas?

"2. Does not the law of Christian charity forbid that a minister of any denomination should calmly and positively misstate the doctrinal tenets or practice of any other Christians?

"3. Is it not one of the first requirements of a preacher of the gospel that he should

Christians?

"3. Is it not one of the first requirements of a preacher of the gospel that he should not juggle with words and not pervert the clear statements of the book from which he is supposed to get his belief? And, lastly, does not any preacher who has erred in all the above particulars forfeit his claim upon the confidence of those who are struggling for the truth, and lay himself open to application of the phrase falsus in uno falsus in omnibus?"

WAS IN ATLANTA LAST NIGHT

Saturday Evening He Was Entertain ed by His Sister, Mrs. Judge W. T. Newman.

Saturday night at the home of Judge W. T. Newman a party of distinguished gentlemen of Atlanta met Hon. Eben Alexander, minister to Greece, Servia and Roumania from the United States.

The distinguished representative of this country to these countries of the ancient Greek came to Atlanta Friday afternoon from Asheville, N. C., to visit his sister and brother-in-law, Judge and Mrs. W. T.

Newman. Among the party of distinguished Atlantians who were invited by Judge Newman to meet Minister Alexander were Governor Atkinson, Hon. Hoke Smith, Judge Hopkirs, Mr. Benjamin Harvey Hill, Hon. Clark Howell, ex-Mayor John T. Glenn, Captain Robert J. Lowry, Major Livingston Mims, Mr. Clarence Knowles, Colonel Berkley and Hon. Charles A. Collier.

With this brilliant company present the evening passed off most pleasantly, many toests being called for and responded to. Dr. Alexander was formerly professor of Greek in the University of North Carolina. His home is at Chapel Hill. He has always liked the ancient Greeks and it was his highest ambition to go to that country as minister from the United States. He was appointed by President Cleveland one month after his inaugural in 1893.

Dr. (Alexander makes his residence in Athens. He talks interestingly of the

classic ancient city.

He represents Athens as being a city of 120,000 people. It is, he says, a very cosmopolitan city. The society there, he says, is bigh and independent. He is rather leased with the society as a whole.
While Dr. Alexander's headquarters are in Athens, he makes yearly visits to Rou-mania and Servia, where the United States

has foreign courts. Athens, Dr. Alexander describes as athens, br. Alexander describes as an interesting city. There are nine daily newspapers published there, he says, but none of them have over four pages as a rule. They are not sensational and give very little news. They are printed in the old Greek alphabet.

Owing to his official relation to the United Owing to his official relation to the office. States Dr. Alexander sees a large part of the Americans who visit Greece. Frequently Americans go to him for passports to Turkey. In Greece they need no passports. He says that a large number of Americans visit Athens yearly, and show a great desire to see all the sights of the ncient and historic city. Dr. Alexander, though very close to the

trouble in Turkey, has not kept fully up to the recent troubles, he having left Athens about the first of last September. He praises Mr. Terrell, minister to Turkey, or his substitution of the substitution for his splendid protection of the American citizens in that country. Not an American has been killed or hurt even in the long disturbance between the Americans as in early September. He came through Germany, where his son was suddenly taken sick. After remaining there for some time he came on to America, going straight

to Asheville, where he has two sons in th Bingham school.

Last night Dr. Alexander left for Phile delphia. Next Saturday he will sail from New York, returning to his post in Athens Dr. Alexander has protected well th Americans and American interes countries he is minister to. He has had very little to do in the way of making claims against those coutnries, as all of them are at perfect peace with America

Are you getting well under the treatment that you are following? If you are using patent medicines or employing physicians, no matter whether they are free or expensive, and you are not getting well, is it right for you to continue and run the risk of dying or becoming incurable? We say no; make a change. Consult us. It will not gost you a cent for consultation, either at the office or by mail, and if we tell you we can cure you we will guarante it, if necessary, by the best financial back-ing. If we cannot cure you we will frankly say so. We have the largest business in the United States in our specialty, and have built-up a reputation for skill and hon-esty that cannot be questioned. We do not claim to treat and cure all diseases, but we do claim to cure those private and deli-cate diseases peculiar to men and women, which forms our distinctive specialty. Sensible Shoes This Season, Dame Fashion declares that pointed toe shoes for women will not be seen much this winter. It has become the fashion for wo-men to walk a great deal, and to do so they nust have plenty of rough weather particularly the shoes that seem to be the right thing in fair weather are not to be tolerated.

A favorite boot for winter will be almost as high as a bicycle boot, laced or buttoned, with round toes and square heel. It will be a comfortable boot to go with the ralny day costume.

with round toes and square neel. It will be a comfortable boot to go with the rainy day costume.

It is not the thing now to wear pretty boots in the street. They are kept for the house and for carriage wear. House slippers are seen in many designs. They are of brown or black patent leather, and are ornamented with buckles set with jewels, real or imitation. The object is to obtain a dashing effect, and it is not necessary to have real diamond buckles to do this. A pretty slipper is of black and white striped satin, and many slippers in different colors are made with white enameled heels.

For a slipper to wear at the bedside there is nothing daintier than the little affair of red morocco, turned up at the toe with the Turkish curve that we admire so much in comic opera. In her own boudoir a woman may be as fanciful as she pleases, and she can always do this in the matter of slippers. of slippers.

SPOKE TO THE CLUB

Dr. J. B. Robins Delivered an Able Address Last Night.

MUCH ENTHUSIASM EXPRESSED

The Saturday Night Club Elected Him an Honorary Member After His Address Was Finished.

The meeting of the Saturday Night Club Saturday night was unusually interesting.

The members discussed the Australian ballot system and the president, Mr. A. P.
Wood, decided that it should be adopted by the states. by the state of Georgia. A large and en-thusiastic crowd was in attendance and speakers were frequently interrupted by

Probably the most interesting thing on the whole programme was the address of Rev. John B. Robins. He was invited to address the can some time ago and he most heartily accepted. His speech was one of the finest that has ever been delivered before the club, and the members expressed their appreciation of it by unanimously electing Dr. Robins as an honorary member of their organization.

The Robins said in part:

Dr. Robins sald in part:

"Young Gentlemen of the Saturday Night Club—The first thing I find it in my heart to do is to express to you my very high appreciation and sincere grailtude for the kindness and consideration shown me by the members of your club. I am by no means unmindful of the causes which led you to invite me to be your guest. This invitation is the product of one of the noblest spirits of this far advanced nineteenth century. It is the spirit of freedom in the realm of thought and religion. It has in itself the promise of the largest, richest life that belongs to our world. It is the spirit of the Son of Mary, who went about doing good." "We live in wonderful times, by far the most glorious that the world has ever seen. The trend of these times is in the direction of an empire, whose laws a ever ational, whose spirit is charity and whose might is love in service. If I can read aright the 'signs of the times' they all mean the triumph of mind, the dominion of thought. Let me speak of this tonight. The practical callings of men have heretofore been regarded as unsworthy the consideration of an educated man. They are coming more and more into notice and demanding the attention of our strongst brain workers. We are beginning to find out that all callings are honorable; all demand thought and all may aid in making men.

"You come fresh from the struggle for existence. What thoughts do you bring with you? What is the great trend of our times? Where is its origin and whither is it tending? I will answer generally now. Your thoughts occupy a higher plane to-day than those of any age of the world and its movement is intellectual. Its origin is in the nature of our common humanity and its trend is in the direction of the trumph of human thought. Let us trace this movement is some of the practical callings of life.

"Not many years ago all that was needed in the agriculture of this country to order to secure success was physical strength and industry. The examples of our fathers enabled us to shape a plowsha

of Julius Caesar was fully merchants of the long ago: "'Let me have men about me that are fat; Sleek-headed men, and such as sleep o' nights. You Cassius has a lean and hungry look;

thinks too dangerous.' "The old storehouse, with its locse meth

dangerous.

"The old storehouse, with its loose methods, its proverbial sleepiness and its crowd of idlers, is gone. The magnificent palaces, the hurrying employes, the genius of advertisins, the search for markets, and the fitness of commercial articles to satisfy the tastes of a refined people, are all the products of mind, of thought.

"The time has been when the practicing physician went armed with polished lancets, painful blisters, mustard and calomel. The medicine that cured his patient was plenty of pure air, a thing he never thought of. Here charity actually covered a "multitude of sins." This is forever gone. The physician of today must know a great many things outside of his profession. He must study environment, the influences of climate, heredity, temperament, disposition, education and general mental make-up. The influences of civilized life, the homes, customs, culture, nervous developments, and a hundred other things are to be considered. The physician now must be a thinker or a failure. Lancets and blisters cannot cure 'the inner man,' and calomel and cupping are poor remedies when the mind is sick. Brains must rule here.

"The time has been when a lawyer by pathetic appeals could induce an ignorant jury to give a verdict contrary to the facts. It is a rare thing now for a lawyer to cry over a jury, 'He may and often does appeal to prejudices, but this too will pass away. When Mr. Conkling's death was announced to the world through the press of the country, there was coupled with the statement that a great lawyer was dead. Great, not because he was familiar with statutes and cases, but because he grasped the rational basis, the spirit of all law, Statutes and cases, but because he grasped the rational basis, the spirit of all law, and judicial powers of the world. His effort to grasp this spirit of his profession made him great. A careful looking into the reason of things under the great law of human rights, makes great lawyers anywhere.

"The time has been when a student of history depended mo

human rights, makes great lawyers anywhere.

"The time has been when a student of
history depended more on memory than any
other power. This, coupled with aptness of
expression and convenience of arrangement, made a great historian. Today it is
not chronology that is needed, nor orderly
events. The effort is made to discover
that power which made such events possible. All events, all times, all life, even
prehistoric, must contribute something in
aiding the human mind to grasp that force
which underlies all and is beautifying and
perfecting the world in harmony with intelligent purpose. Every event is brother to
every other event. All are kin—all are related. Here only the thinker succeeds.

"The time has been when philosophy was founded upon water, fire, body,
passion, sentiment, emotion, relativity, etc.
Finally it reached m'nd as its basis and
self-consciousness as its witness. Thought
about thought was determined as its end.
From water to thought is no small progress.
One is like an unvitalized egg, the other.
iske the nightingale with its song. Here,
as nowhere else, do we see the triumph of
thought.

"But I turn to my own calling. The time
has been, and not very long ago either,
when a good pair of lungs and a supply of
lachrymal juices were considered necessary
elements in a preacher's work. Religion
was emotional, sympathetic; it was April
with its showers of June with its sunny
days in the religious world. I would not
underrate emotion and sentiment in religion, neither do I wish to overrate them.
No matter how sad it may be to many, 'the
good old days' will never return. Even a
preacher, now, must think a little—just a
little. In some there has been
a transition to the retorical and beautiful,
with general superficiality. Thoughtless
brains seek to entertain and not to instruct.
The 'spread-eagle' statesman and the
'sky-scraping' clergyman are today anti-The time has been when a student of

quated surplusage. The fact that they are gone gives me no pain. Men cannot be satisfied now simply to laugh, to weep, to be entertained. They are asking why whence? whither? If they find no answers to these question in the pulpit they are sure to go elsewhere to find them. It is the voice of God calling his children to something higher and I am glad of it. The clergyman must think today or 'step down and out.'

"All men in all callings, professions and business must employ mind today or rail. There is but one movement and that is in the direction of a complete reign of mental powers. All else is subordinate or rapidly becoming so. The world was made to be governed by thought in its highest and broadest development.

"There may be many moral upheavals and religious earthquakes. Many things that we love today may go down under the pressure of a great, free, far-reaching thought, but it is coming. It is already knocking for admission at the gateway of civilization. It will be an aristocracy of true manhood, of a universal life, of a divine purpose. Bishop Pierce said in an address at Athens, Ga. "The transformation of human nature with the divine image and man's conformity to the mind and will of deity will involve the regeneration—if not the abolition—of the present order of things." This grand mind with a genius that had no equal in Georgia, saw clearly what I have so imperfectly presented to you tonight. He went up into the mountains and brought us back, not tables of cold stone, but the truth and inspiration of the coming day.

"They tell me that somewhere there is a perfect harmony, and that there is a unity of thought. It is the dream of the ages, the struggle of history and the hope of men. They tell me that somewhere there is a perfect harmony, and that there is a unity of thought. It is the dream of the ages, the struggle of history and the hope of men. They tell me that somewhere there is a common center, toward which worlds are falling and around which shining galaxies are swinging. They tell me, too,

stars, and can begin to hear the music of the shouting sons. 4
"Body, mind, spirit, business, religion, nations, civilizations and people are pre-paring for a grander thought, a better time, a gladder day, a fuller life, a univer-sal brotherhood, a divine kingdom, where obedience is liberty and where law is love. Be worthy of such a day, my young friends. Live as if it were here, Contribute some thought, some deed to hasten its coming. "I thank you for your attention and patience."

Brady-Miller stables, Atlanta, Ga., W. H. Kerr (proprietor of Woodbridge stock farm, Bourbon county, Kentucky,) will sell to the highest bidder thirty-six head o andard breed trotting and saddle horses. In this consignment are such noted horses as Nutmont, 3493, record 2:22½, trial 2:17, one of the finest stallions in Kentucky, and perfectly kind for any one to drive; Bourbon Wilkes, Jr., four years old, bay stal-lion, standard, very speedy; Carrie C., tri-al 2:30, and several others that can go fast. This is probably the best lot of horses tha has been sent south. Catalogues furnished

Paine-Murphy Co.'s Grain Letter. Atlanta, November 14.—The week's clos-ing with the wheat market was varying, and bulls not quite so confident of a great expansion of prices about the 80 cent mark The advance yesterday up to 81%c, which is the highest price so far recorded this The advance yesterday up to 81%, which is the highest price so far recorded this season, was too tempting to holders, and although news and conditions were favorable to them, they turned free sellers, but did not find the expected demand that a bull market generally creates. There was further selling of this character Friday and no line to the buying, notwithstanding the excellent heavy clearances for the week-4,664,000 bushels, against 343,000 last week. Of this amount 2000 bushels were shipped from the Atlantic ports, and as no mention was made of anything being shipped from Galveston the balance must have been cleared from the western points, as Dun says the shipments to India and Australia have been good. The cash markets have played a very important part in the week's transactions, some very fancy prices having been paid for No. 2 red winter. Receipts in the northwest have been lighter at 3,279 cars, against 5,829 and 7,512, but indications point to an increased movement after next week at the terminal points, as the interior warehouses will absorb all the farmers' stocks for a week or two. While a number of the big bulls still believe in dollar wheat we are not inclined very strong on it. As the holiday season approaches holders will want to secure their profits, trade will be much lighter and it the market advances it will be something out of the ordinary.

The feeling in corn is rather weak. Receipts are light at present, but after husking is over it is expected they will show a material increase. The trade is largely focal will also on the advance.

The feeling in provisions, especially among packers, is bearish. The hog market continues rather weak. The cash demand is not very good and there is little to inspire buying for speculative purposes.

Two Female Burglars Who Have Made Glaring Records.

THEIR WORK DONE IN DAYLIGHT

They Have Been Operating in West End for Many Weeks—How They Were Caught.

Saturday's work of the detectives in the case of Carrie Weaver and Ella Glover, th female burglars who were locked in the station house Friday morning, brought some startling developments.

No less than five bold burglaries

been credited to them and they pleaded guilty in every case. They committel their crimes in a manner worthy of the most experienced outlaw of the sterner sex. It seems the women have been operating exclusively in West End, so far as can be discovered. Innumerable residences have been entered in that part of the city in broad daylight, and thousands of dollars

worth of goods stolen. All the burglaries have been reported t the authorities, who have failed up to Fri day to secure hardly any clew to the guilty

Robbed the Hale Residence. Three weeks ago the residence of J. E. Hale, at 168 Lee street. in West End, was ourgiarized in a most mysterious manner and about \$200 worth of valuable jewelry clothing and household articles stolen.

The thieves had sawed the slats of shutter in broad daylight, while Mrs. Hale was away from home only forty minutes, and had ransacked every room in the house, afterwards walking out the front door with their arms laden with booty.

erday at the station house these two remarkable negro women gave graphic ac-counts of how they had watched Mrs. Hale leave her home, and how they entered the nouse at an opportune time, and escaped ess daring at the home of Mrs. Hanburg, at

14 Railroad avenue, in West End, about wo months ago. They entered here by braking a window also in broad daylight while the family was away. The women had forced the blinds in the same way, and had again ransacked every room in the house they were able to enter, securing about \$70 worth of jewelry and clothes.

The women also entered the residence a 109 Glenn street several weeks ago, and re-peated their same scheme in broad day-light. They secured a lot of valuable jew-elry there. The matter was reported to the authorities, but no clew could be found to

authorities, but no ciew to the burglars.

The women entered two residences on Gordon street with the same result, and also in broad daylight. One strange feature about their work is that they never operated in the dark.

How They Were Caught. Officer Stallings is probably responsible for the arrest of the women. Last Friday morning Carrie Weaver stole a cloak from a Decatur street merchant and Stallings arrested her at the corner of Alabams and Pryor streets and sent her to the station house in the wagen At the prison Detective Powell happened to be standing near when the woman was brought in. It her hat she wore a bright yellow feather. It answered the description of a feather stolen from Mrs. Hale three weeks before. Powell recognized the feather and determined to investigate. It resulted in the award.
